

**CZ**

***For Those Who Know***  
*Rimfire / Semi Auto / Centrefire*

**RETAIL BOOK**

CZ have been manufacturing firearms for over 80 years and boast an impressive range of rimfire & centrefire hunting rifles, sport & competition firearms and an expansive military and law enforcement range. Manufactured in the Czech Republic, CZ produces an average of 1577 firearms a day to meet an ever-growing global demand for premium quality firearms at an affordable price.

## ALL NEW CZ 457 SERIES

For over 70 years, CZ has been the world leader in the development and manufacture of long guns using rimfire cartridges. Each and every one of their models was the best on the market at the time, however, none have brought such an enormous leap forward for the end user as the new CZ 457 family.

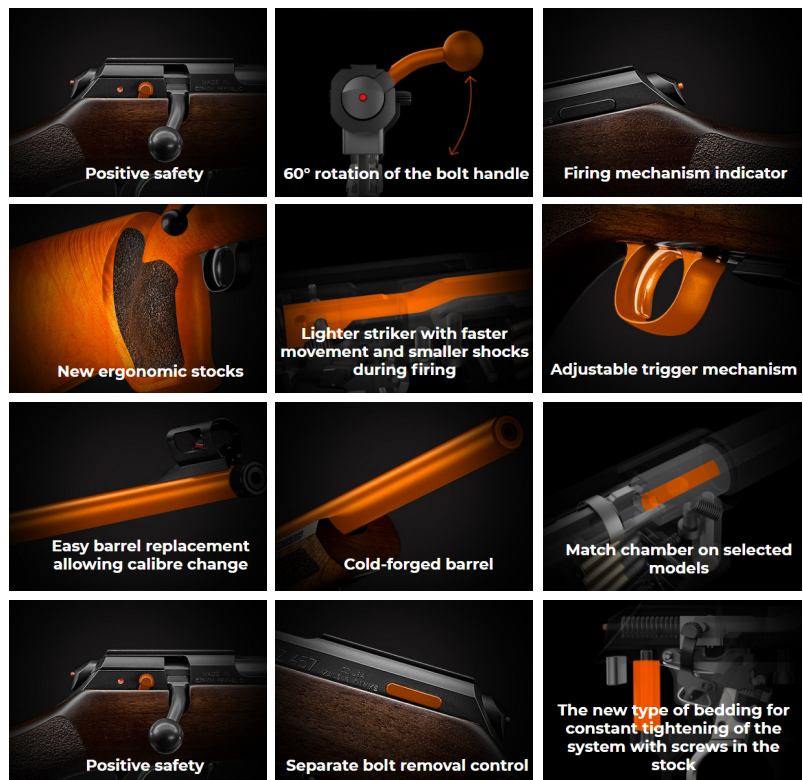

The **New Standard** for  
a modern rimfire rifle

### Main features CZ 457 series

The CZ 457 series offers exceptional user comfort due to the easy, fast and reliable bolt even with the riflescope attached. To ensure maximum safety, there is a positive safety on the right side of the receiver, a striker status indicator and a separate bolt extractor control.

The accuracy has considerably improved with the use of a new adjustable trigger mechanism with a low trigger pull weight and excellent travel, a noticeably lighter striker and a new type of bedding. A literally revolutionary innovation is the extremely durable anti-corrosion surface finish of the metal parts this technology currently has no equal on the market.
