CZ

CZ have been manufacturing firearms for over 80 years and boast an impressive range of rimfire & centrefire hunting rifles, sport & competition firearms and an expansive military and law enforcement range. Manufactured in the Czech Republic, CZ produces an average of 1577 firearms a day to meet an ever-growing global demand for premium quality firearms at an affordable price.

CZ 457 SERIES

For over 70 years, CZ has been the world leader in the development and manufacture of long guns using rimfire cartridges. Each and every one of their models was the best on the market at the time, however, none have brought such an enormous leap forward for the end user as the new CZ 457 family.

CZ 457 Series - Main features

The CZ 457 series offers exceptional user comfort due to the easy, fast and reliable bolt even with the riflescope attached. To ensure maximum safety, there is a positive safety on the right side of the receiver, a striker status indicator and a separate bolt extractor control.

The accuracy has considerably improved with the use of a new adjustable trigger mechanism with a low trigger pull weight and excellent travel, a noticeably lighter striker and a new type of bedding. A literally revolutionary innovation is the extremely durable anti-corrosion surface finish of the metal parts this technology currently has no equal on the market.

FEATURES

- Synthetic Polymer Stock
- Adjustable Trigger
- Detachable Magazine
- Cold Forged Barrel
- Includes CZ 3-9x42 (SFP) Scope and Mounts
- Non-Illuminated Reticle

CZ SCORPION EVO 3 S1 22LR

An exclusive, semi-automatic model for sport shooting with 22LR cartridges. Retaining all advantages of the globally popular CZ SCORPION EVO 3 S1 series, such as light weight, advanced ergonomics, high accuracy, comfortable handling, unrivalled ease of disassembly, extreme reliability and extremely fast reloading, in addition to minimal recoil and virtually zero barrel wear. The dynamic bolt is optimized for reliable operation with all types of cartridges. This 16" (416mm) barrel version comes equipped with a cylindrical compensator mounted on the muzzle and is equipped with a folding / telescopic shoulder stock, adjustable mechanical sights and 2 x 10 round polymer magazine.

CZ SCORPION EVO 3 S1 - Main features

The CZ SCORPION EVO 3 firearm in a truly original design offers users lots of benefits. To highlight just a few – low weight, perfect ergonomics, high accuracy, smooth handling, by far the easiest stripping, extreme reliability and exceptionally fast reloading. There is a folding telescopic shoulder stock which has been designed so the trigger is conveniently accessible even when the stock is folded. Plus an array of mounting interfaces for attachments of your choice and preferences, including red dot sights, flashlights, laser pointers, front hand guards and other accessories.

Frame made of highly durable polymer

Adjustable non-reciprocating cocking handle

Ambidextrous safety controls

Axially adjustable pistol grip

Easily reachable slide stop finger piece

Rich mounting interface according to MIL-STD-1913

Folding telescopic shoulder stock

Magazine well mouth shaped for maximum reloading speed

Extremely simple design

FEATURES

- Semi Automatic Action
- Fiberglass Reinforced Polymer Frame
- Folding Telescopic Shoulder Stock
 - Adjustable Non Reciprocating Cocking Handle
- Ambidextrous Safety Controls
- Cold Hammer Forged Barrel
 - Muzzle Thread

SPECIFICATIONS

- Barrel Length:** 16" / 41.6cm
- Overall Length:** 33.9" / 86cm (Unfolded)
- Orientation:** Ambidextrous
- Magazine Capacity:** 10 Rounds
