

For the 28gauge Evo Fibre Wad & Over-Powder Card

Until now the 28gauge cartridge home loader wanting to load fibre wads was in practice limited by choice and price to solid cork wads. Hence sacrificing performance due to cork being a poor obturator and therefore ballistically at a disadvantage.

We are very pleased to be able to offer our EVO fibre wads unique to us.

Made from 100% biodegradable *material (**Eco-Wax lubricated**) and delivering superior ballistic characteristics to cork wads.

****The material has a long established track record as a wad material.***

Type	Length	Per 100	Per 500	Per 1000
Evo Driving Wad	8mm	£2.10	£9.50	£17.00
Evo Driving Wad	10mm	£2.10	£10.00	£18.00
Envirowad Driving wad	12mm	£2.30	£11.00	£19.00
Envirowad Driving wad	14mm	£2.50	£12.00	£21.00
*Driving Wad	18mm	£2.80	£13.00	£24.00
Over powder Card	2mm	£1.40	£7.00	£12.00
Over powder Card	4mm	£2.00	£9.00	£16.00

One or more wad can be used per cartridge to obtain wad length required if necessary

***18mm length Diana style wads.**

28ga 21gm #6.5 or #7 Load

70mm Fiocchi Case
 Fiocchi 615 primer
 1.20gm PSB+2SP
 4mm over powder card.
 14mm Fibre wad
 21gm #6.5 (2.5mm) lead shot
 6 Point Star Closure
 O/L=60.9mm

28ga 24gm #6.5 Load

70mm Fiocchi Case
 Fiocchi 615 primer
 1.15gm PSB+2SP
 4mm over powder card.
 12mm Fibre wad
 24gm #6.5 (2.5mm) lead shot
 6 Point Star Closure
 O/L=61.0mm

Note

All loading data is supplied at users own risk. Since loading practices are beyond our care and control Folkestone Engineering Supplies disclaims all liability for damage, injury and/or death. We make no warranties expressed or implied limited or full. All products sold as is.
